

ACHEEVA GRADUATE—Testimonial, March 2016

This ACHEEVA GRADUATE was purchased in March for our client, Scarlett. Her parents have kindly agreed to share images and feedback following it's delivery.

Pictured right:

Scarlett using an Acheeva Graduate on loan in February 2016. The Graduate enables her to take part in every day family activities instead of remaining in bed.

“this is going to be my lifesaver .. I’m so desperate as we’re changing (Scarlett) and doing everything from the floor as don’t want her in her bedroom”.

Scarlett, who has very complex needs, attends a special school every day and returned home (shortly after delivery of her own Graduate) with significant respiratory problems.

They popped her straight on to her new Graduate using the support pack to keep her in the best position to assist her breathing and, in no time at all, she was comfortable, relaxed and settled.

“Home from school early with erratic breathing—thankful for the bed being here”

Pictured below right:

Scarlett uses her Graduate with sensory equipment, and watches TV with her brother.

“Scarlett's dystonia is awful. She's in a lot of pain so the bed is giving lots of options to try help her...”

Pictured left:

Scarlett’s Dad also benefits from the height adjustment when re-positioning or changing (Scarlett)

“..bed has been a life saver, can't imagine not having one..”

“She's very relaxed on it. We love your products.”
